

Watercolor Techniques

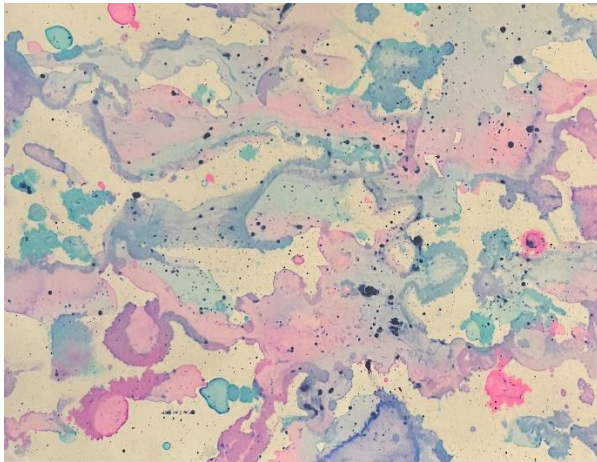

Four Amazing Ways to Use Watercolor!

Doily Technique

Plastic Wrap Technique

Ink and Oil Technique

Salt and Glue Technique

Watercolor Project Objective:

To learn how to use watercolor in different ways to create unique techniques through household objects and art material.

Art Materials:

- Watercolor Paint
- Paintbrushes
- Watercolor Paper
- Water Cup
- Paper Towels

Household Materials:

- Salt
- Oil
- Glue
- Plastic Wrap
- Pipettes
- Paper Doilies
- Tray

Technique Instructions:

1. Doily Technique

- Place your doilies in your style and paint over them with watercolor. Coat the paper with paint and then leave the paper to dry.

2. Plastic Wrap Technique

- Paint on top of paper and then place plastic wrap on top of your paint. Then scrunch up plastic wrap to create texture. Set to dry.

3. Ink and Oil Technique

- Place watercolor ink and cooking oil in separate containers. Place your paper on a tray and use separate pipettes to squeeze watercolor ink on your paper. Then, squeeze oil onto the watercolor to create the texture.

4. Salt and Glue Technique

- Use your glue to draw (either a shape or image) onto your watercolor paper. Take the salt and sprinkle on top of the glue. Pour remaining salt into a bowl. Take your watercolor brush and paint onto the glue until it's coated. Once done, leave the paint and glue to dry overnight.
